Quiz Competition on Road-Safety

A quiz on Road Safety conducted by NSS Units of Ismail National Mahila PG College, Meerut on 27th November 2021. The volunteers were tested on their knowledge of the traffic rules and various road safety measures in age-appropriate multiple-choice questionnaires. The hour-long quiz proved to be not only a tool for testing the students' knowledge of traffic rules but also became a medium of sensitizing young minds about traffic rules and the importance of following them. They realized their contribution to traffic management, and how they can be instrumental in making people aware of traffic rules and can force their parents, relatives and friends to follow traffic rule for the safety of self and others. The programme officers of NSS units jointly organized the quiz in which Nazneen, Vanshika, and Hina Rajput secured first, second, third place respectively.

Objectives:

- ❖ Aims at making Participants aware of the giant problem of waste management and climate change.
- ❖ To make Participants aware of the Gigatonne challenge.
- ❖ To learn about waste categories and waste segregation.
- ❖ To know about Landfills and their consequences.
- ❖ To composting and vermicomposting of kitchen waste.
- ❖ Motivate students to participate actively in waste management and spread awareness for the same.
- ❖ Q/A session.

Event report:

An informative and interactive workshop was organized by NSS Unit-3 of Ismail National Mahila PG College, Meerut as a one-day camp on 25th January 2022. The Chief Resource Person on the occasion was Mr. Madhukar Varshney, the founder of “RISE FOUNDATION”, an NGO started in 2011 which has been putting forth immense efforts to curb the usage of plastics and contribute to the positive amendment of the environment. Mr. Varshney has worked with Ericson for 19 years and is currently pursuing his passion for environmental-related projects. He is passionate about solving problems of Waste and torchbearer for Urban Forest projects. He is the winner of the IESA-Earth Day Heroes 2020 awards under “impacting the urban category”. Currently, He is working as Coach also with Complexity University to help people to take action against Climate change. As we all know the environment plays an important role in healthy and balanced living as well as existence on planet earth. But with the advent of technology and more comfortable creating products, various adversities and pollutants are seen to be affecting the ecological system in today’s time.

Mr. Varshney gave an elaborate insight into landfills, waste Categories, Composting, Climate Change along with an Introduction to Gigatonne Challenge and demonstrate his valuable research and knowledge through real-life videos. He further gave many examples from the local area. He also answered a lot of questions of the participants in a Q&A session conducted by Mrs. Meenu Sharma. Dr. Anubhuti Chauhan, the president of the non-

political organization “Arunodaya Society” and various social organizations was the chief guest of this event. She gave her valuable inputs in the program by taking examples from the local problems of Meerut. Dr. Anita Rathi, the Principal also motivates students to active participation in waste segregation at their homes and college also. She also appreciated the efforts of “Rise Foundation” in the field of environment protection and encouraged NSS unit-3 to associate them in their initiative. The participants found the workshop very informative, there was an overwhelming response from them. Mrs. Meenu Sharma, program officer, NSS Unit-3, welcomed the guests and Participants and delivered a vote of thanks at the end. Feedback was also sought from the participants, who were not only from the college but other places as well. Through this session, we have learned that if something can't be reduced, reused, repaired, rebuilt, refurbished, resold, recycled, or composted, then it should be restricted, redesigned, or removed from production because there is no such thing as 'away'. When we throw anything away it must go somewhere. So, the solution does not lie in waste management only but production and decision also.

Workshop on disaster- management

A workshop on disaster- management has been concerted. Mr. Sarabjeet Singh Kapoor was the resource person of this event. He is a well-known name in the field of disaster management and has been awarded by Presidential award for his work. Currently, he is working as a member in several organizations like Redcross society, Post forum Advisory Committee, and Swachh Bharat Abhiyan Society. Mr. Kapoor has taught NSS volunteers about disaster management in the situation of earthquakes and fires. Sir has also taught to make stretchers with minimum resources and to help injured in unavoidable emergencies. Along with that, Mr. Kapoor also demonstrated CPR (Cardio Pulmonary Resuscitation). The objective of this whole session was to save lives at the time of emergency by spreading awareness about CPR and avoiding any unnecessary loss of life. It is an emergency procedure and requires rapid and efficient response, available equipment, and personnel trained in life-saving procedures. Around 50 students of Ismail Girls National Intercollege, Shastri Nagar have also attended the workshop and benefitted from the same. This training proved to be vital for the volunteers as such skills are required in case of urgency, in future and can be taught to those who are oblivious of these trainings. At the end of this session, students asked their queries regarding disaster management.
