ISMAIL NATIONAL MAHILA PG COLLEGE, MEERUT

(Affiliated with C.C.S University, Meerut, formerly Meerut University) NAAC Accredited A Grade College A Study tour was organised on 22.12.21 by the Department. National Museum of Meerut was visited by our students so that they made aware about the events and Heroes of our National Movement. It proved very beneficial for the students. 18 Students were there with our teachers.

The Museum Director gave a scholarly lecture on glorious National movement .

Dr Shivali Agrawal HOD Political Science

Extension Activity by Rangers Committee Report of Tobacco Control Programme

2021-2022

Government of India launched the National Tobacco Control Programme (NTCP) in the year 2007-08 during the 11th Five-Year-Plan, with the aim to (i) create awareness about the harmful effects of tobacco consumption, (ii) reduce the production and supply of tobacco products, (iii) ensure effective implementation of the provisions under "The Cigarettes and Other Tobacco Products (Prohibition of Advertisement and Regulation of Trade and Commerce, Production, Supply and Distribution) Act, 2003" (COTPA) (iv) help the people quit tobacco use, and (v) facilitate implementation of strategies for prevention and control of tobacco advocated by WHO Framework Convention of Tobacco Control.

During the 11th Five Year Plan, NTCP was implemented in 21 states covering 42 districts. To carry forward the momentum generated by the NTCP during the 11th Five Year Plan and baseline data generated through the Global Adult Tobacco Survey (GATS) India 2009-2010, indicating high level of prevalence of tobacco use, it was upscaled in the 12th Five Year Plan with a goal to reduce the prevalence of tobacco use by 5% by the end of the 12th FYP. As per the second round of GATS, the number of tobacco users has reduced by about 81 lakh (8.1 million).

The main thrust areas for the NTCP are as under:

- Training of health and social workers, NGOs, school teachers, and enforcement officers;
- Information, education, and communication (IEC) activities;
- School programmes;
- Monitoring of tobacco control laws;
- Coordination with Panchayati Raj Institutions for village level activities;

Setting-up and strengthening of cessation facilities including provision of pharmacological treatment facilities at district level.

NTCP is implemented through a three-tier structure, i.e. (i) National Tobacco Control Cell (NTCC) at Central level (ii) State Tobacco Control Cell (STCC) at State level & (iii) District Tobacco Control Cell (DTCC) at District level. There is also a provision of setting up Tobacco Cessation Services at District level.

Currently, the Programme is being implemented in all 36 States/Union Territories covering around 612 districts across the country.

National Tobacco Control Cell (NTCC): The National Tobacco Control Cell (NTCC) at the Ministry of Health and Family Welfare (MoHFW) is responsible for overall policy formulation, planning, implementation, monitoring and evaluation of the different activities envisaged under the National Tobacco Control Programme (NTCP). The National Cell functions under the direct guidance and supervision of the programme in-charge from the MoHFW i.e. Joint Secretary. The programme broadly envisages;

Report: Rangers committee of Ismail National Mahila PG College has organised National Tobacco Control Programme on 3rd December 2021. Rangers Incharge Dr.Pooja Rai welcome all the guest and participants. In her welcome she says that "Nasha Nash ka mool hai"(Toxic is the root for decline). Mohit Bhardwaj from Sant dariav Das smark shiksha samiti delivered a lecture on awareness regarding Tobacco control. Principle Dr. Anita Rathi was the chair of the programme. Dr.Anita Rathi said that such initiative is demand of time for creating a society of blessings. 64 students participated and take pledge regarding awareness of Tobacco control. Dr. Monika, Amit Kumar, Dharamveer and gaurav are those who were present along with other teaching and non- teaching members of the college. At the end of the programme Dr. Pooja Rai has delivered vote of thanks.

<u>Cleanliness Campaign In Slump Area</u>

The art of cleanliness involves keeping your mind, body, house, and environment clean. As maintaining a clean b ody and mind is essential for both healthy mental and physical health, we should make cleaning our daily task. Ou r neighborhood's and environment's cleanliness is important for our society's wellbeing. Maintaining cleanliness i s our responsibility, not that of others, as it can lead to numerous illnesses and diseases and serve as a breeding gr ound for flies and mosquitoes.

Starting with personal hygiene, we should practise basic cleanliness by washing our hands to keep bacteria and ge rms at bay.

The Clean India Mission, a countrywide push to clean the streets, roads, and neighborhoods, is one of the initiatives the Indian government launched to promote cleanliness. It includes 4041 municipalities. At Rajghat in New Delhi,

where Prime Minister Narendra Modi himself cleared the way, this campaign got underway on October 2, 2014. Three million government leaders, as well as schools and universities from all around India, participated in this, the largest cleanliness campaign ever held in India. At Rajpath, he also signaled the start of a walkathon, and to everyone's amazement, he marched alongside the participants for a considerable distance as well as just a few token steps.

Through the Clean India Movement, which is raising awareness, the public has been encouraged to take responsibility for their actions. With the majority of people now actively participating in cleanliness initiatives across the state, Gandhi's vision of a "Clean India" has started to take shape.

Report: On 19 February 2021, awareness was spread under the cleanliness campaign in slump area near Rangoli Road by the Ranger Committee at Ismail National Women's PG College Meerut. This program was organized by Dr. Pooja Rai, in-charge of Ranger Committee, as well as the program was inaugurated by showing green flag by the principal of the college. Under this program, 22 girl students participated and went to the slum and distributed dustbins and biscuits on behalf of the college. Dr. Anju Bala Rajput, teacher of B.Ed department of the college as well as Shastri Nagar's councilor Narendra rastravadi, Amit, Gaurav etc. were also helpful in making this program successful.

Plastic Debris: Impact on Environment and wild Life 2021-22

As the world's capacity to deal with the fast-rising output of disposable plastic products becomes overwhelmed, plastic pollution has emerged as one of the most urgent environmental challenges. In impoverished Asian and African countries, where rubbish collection services are either ineffective or nonexistent, plastic pollution is most noticeable. However, the industrialized world also has issues with adequately collecting used plastics, particularly in nations with poor recycling rates. The United Nations has been trying to create a global convention because plastic waste has become so pervasive.

Plastic is a polymeric substance, which means that it has very massive molecules that frequently resemble long chains comprised of an apparently unlimited number of interconnecting links. Although there are many natural polymers, including silk and rubber, they have not been linked to environmental contamination since they degrade quickly in the environment. Today, however, the typical consumer interacts on a daily basis with a wide range of plastic materials that have been created specifically to thwart natural decay processes. These materials, which are primarily derived from petroleum and can be moulded, cast, spun, or applied as a coating, come in a variety of shapes and sizes. In many regions of the world, manufactured plastics tend to persist in natural ecosystems because they are mostly nonbiodegradable.

On March 30, under the joint auspices of Activity Club and Ranger Committee, a guest lecture was organized on the subject of Plastic Debris Effect on Environment in One G, in which 113 girl students participated. The program was inaugurated by the principal and Member of Conscious Citizens Association by offering flowers to Maa

Saraswati. The chief guest in the program was Commissioner Surendra Singh, fellow Major S.P. God, Mukesh Sharma etc. Mr. Girish Shukla, General Secretary, Conscious Citizens Association insisted on not using plastic. Ranger in-charge Dr. Pooja Rai, discussing the side effects of plastic, urged the girl students to use it less. **Attachments:**
